DIGITAL TIP
Translating texts using Google Lens

**You can use Google Lens –app on your phone to translate texts fast and easy.
This is how it works:**

Open Google Lens. On some phones you can find it on the **Google search bar.**

Other option is to download **Google Lens –app** from the app store.

Lens

Choose **language**.

Take a picture of the text you want to translate…

…or choose a picture from the gallery.

Choose **"Käännä"** or **"Translate"**

The app translates the text on the picture.

If you want to **listen to** the translation, press here.
