

DIGITAL TIP

Free images from photo banks

Do you sometimes need images for school work or your social media pages etc? Please remember that all images found on the Internet may not be used without permission. However, there are also images that are free to use. You can search and download free images easily from certain **photo banks**. Here are some examples of those:

- **Pixabay:** pixabay.com
- **Pexels:** pexels.com
- **Unsplash:** unsplash.com
- **Kuvia Suomesta:** kuviasuomesta.fi

Please note:

When you search for images, sometimes there are both **free** and **paid** images on the search results. Make sure that you download only free images.

Photo banks might have different kind of **licenses** i.e. instructions on how to use their images. Read these instructions carefully.
